DECLARATION BY THE CANDIDATE.....	iv
CERTIFICATE FROM THE SUPERVISOR.....	iv
COPYRIGHT TRANSFER CERTIFICATE	v
COPYRIGHT CERTIFICATE	v
ACKNOWLEDGEMENT	vi
TABLE OF CONTENTS	viii
LIST OF FIGURES.....	xii
LIST OF TABLES	xv
ABBREVIATIONS.....	xvi
PREFACE	xvii
CHAPTER 1	1
1.1 Introduction	1
1.2 Dyes: classification and environmental impact.....	2
1.3 Treatment method	5
1.4 Biological method	6
1.4.1 Bacterial degradation.....	8
1.5 Environmental factors affecting the biodegradation process	10
1.5.1 Effect of pH	10
1.5.2 Effect of temperature	11
1.5.3 Effect of substrate concentration	11
1.6 Ozonation:	12
1.6.1 Ozonation mechanism	12
1.7 Integration of Ozonation and Biodegradation.....	14
CHAPTER 2	16
Literature Review.....	16
2.1 Biodegradation of dyes.....	16
2.1.1 Biodegradation of dyes via bacterial strain	16
2.1.2 Biodegradation of dyes via fungal strain	18

2.1.3 Biodegradation of dyes via Algae	20
2.1.4 Detailed review on biodegradation of dyes via bacteria.....	21
2.2 Ozone based treatment system for dyes degradation	28
2.3 Integration of ozonation with biodegradation for dye treatment.....	31
2.4 Summary of the literature review and research gap	39
2.5 Objective of my Research work	41
CHAPTER 3	43
Materials and method.....	43
3.1 Dyes and other chemicals.....	43
3.2 Isolation of effective bacterial species and identification	44
3.3 Batch study	44
3.4 Analytical Method.....	45
3.4.2 Metabolites identification using GC/MS.....	46
3.5 Toxicity Assessment.....	46
3.5.1 Phytotoxicity.....	47
3.5.2 Photosynthetic pigment content.....	47
3.5.3 Bacterial Toxicity	48
CHAPTER 4	50
A step towards enhancing the efficiency of biofilm mediated degradation of brilliant green dye in packed bed bioreactor: Statistical and toxicity analysis	50
4.1 Introduction	50
4.2 Materials and method	52
4.2.1 Experimental setup and immobilization procedure	52
4.2.2 Biofilm Growth evaluation.....	54
4.2.3 Optimization by RSM (BBD).....	54
4.2.4 Modeling by ANN	56
4.2.5 Garson's method.....	58
4.2.6 Continuous study of removal of BG in PBBR	59
4.2.7 Kinetics study	59
4.3 Results and discussion.....	60
4.3.1 Identification of dye degrading bacterial strain.....	60
4.3.2 Morphological analysis of PUF carrier and biodegradation study	61
4.3.3 Effect of process parameters on BG dye degradation	62

4.3.4 Impact of BG dye on biofilm growth	64
4.3.5 RSM Model Analysis.....	65
4.3.6 Interactive effect of process variables on dye degradation.....	67
4.3.7 Modeling by ANN	70
4.3.8 Comparison of optimization Models	72
4.3.9 Comparative importance of operating parameters.....	73
4.3.10 Continuous study in PBBR for BG dye biodegradation.....	75
4.3.11 Kinetic study.....	76
4.3.12 FTIR analysis of control and degraded samples.....	78
4.3.13 Toxicity analysis.....	79
4.4 Conclusion.....	82
CHAPTER 5	83
Assessment of biodegradation kinetics and mass transfer aspects in attached growth bioreactor for effective treatment of Brilliant green dye from wastewater.....	83
5.1 Introduction	83
5.2 Materials and method	85
5.2.1 Bacterial growth evaluation and EPS extraction	85
5.2.2 Experimental setup, immobilization, and operation of PBBR	86
5.2.3 Development of model for mass transfer study.....	86
5.2.4 Biodegradation kinetics	92
5.3 Results and discussion.....	94
5.3.1 Effect of BG dye on growth characteristics and composition of EPS.....	94
5.3.2 Effect of flow rate on BG dye degradation.....	95
5.3.3 Study of external mass transfer effect	97
5.3.4 FTIR analysis of BG dye before and after biodegradation.....	102
5.3.5 Analysis of metabolites and elucidation of degradation pathway	103
5.3.6 Kinetic study.....	106
5.3.7 Toxicity Studies.....	109
5.4 Conclusions	112
CHAPTER 6	114
6.1 Introduction	114
6.2 Materials and method	116
6.2.1 Ozonation procedure.....	116

6.2.2 Biological Treatment	118
6.2.3 Analytical method.....	119
6.2.4 Toxicity assessment.....	121
6.2.5 Techno-economic assessment.....	121
6.3 Results and discussion.....	123
6.3.1 Variation in pH with ozonation	123
6.3.2 Effect of ozonation time on color and COD removal.....	125
6.3.3 Enhancement of biodegradability index (<i>BOD5/COD</i>)	129
6.3.4 Coupling ozonation with biodegradation in PBBR	131
6.3.5 Assessment of toxicity.....	132
6.3.6 GC-MS assessment of degraded metabolites	134
6.3.7 Economic assessment	137
6.4 Conclusions	140
CHAPTER 7	142
Summary of the thesis and scope for future work	142
7.1 Summary	142
7.2 Scope for future work.....	144
Appendix Data	166
List of Publications	170
Conferences and workshops attended.....	171
