

Acknowledgement

I would like to reflect on the people who have supported and helped me so much throughout this period. But this thesis is also the result of many experiences I have encountered at IIT (BHU) from dozens of remarkable individuals who I also wish to acknowledge. First and foremost, I offer my sincere gratitude to my supervisor Dr. R. K. Singh, who has encouraged me throughout my thesis with his patience and knowledge whilst providing me opportunity to work with freedom. I am also grateful to the head of the department Prof. R. Mahanty for their valuable guidance and suggestion during the work. In addition, I would like to thank the thesis RPEC members Dr. S. K. Singh and Prof. Neeraj Sharma for their valuable comments and suggestions. I would also like to thanks our research group member Dr. V. N. Lal for motivating me in several occasions. All the faculty member, staff members, and lab technicians of the department for their unfailing support and assistance.

I would also like to thanks to Dr. Akshay Kumar Rathore for their support, suggestion, and motivation. I also thanks to Prof. Santanu Mishra, for allowing me to learn DSP in his Lab, discussions and suggestions on several occasions.

This work would not have been possible without the financial support of the MHRD, IIT (BHU), and IEEE-IES for the student travel grant. I also thanks for Linear Technology, and Coil craft for the free sample.

I would like to thank my friend Md. Motiur Reza, Avneet Kumar, and Vinod Kumar Bussa for their discussion, advice, motivation. I would also appreciate their assistance in mathematical analysis, MATLAB simulation and technical discussions. Nevertheless many more departmental friends: Naresh Pilli, Raghuram, Vijay, and Om Prakash deserve special mentioned for emotional support that I will cherish forever. I also

acknowledge my Lab mate specially Abhinandan Routray, Sri Prakash, Pawan, Soumya, Simanta, Manash, Nitij, Kharan, Akash, and Navdeep, who makes the lab environment aromatic and enjoyable. I also thank my entire ex-Lab mate, especially Bhanu teja, Aditya Aman, Hitesh Kumar, Somdut, Radhe Syam Drivedi, Varun, Pranshu, Jitendra, Amrita, and Pramod. I also thanks to Dr. S. S. Nag and Anil Gambhir for their assistance to understand DSP, modeling, and control of the converters.

I would like to thank my father, whose love and guidance are with me in whatever I pursue. They not only assisted me financially but also extended their support morally and emotionally. I also thank my brother and sisters for continuous encouraging. I would also like to thanks Ms. Pratibha for emotional attachment with me and my family members. Most importantly, I wish to thank my loving and supportive wife, Rubina, and my two wonderful children, Aisha, and Ariba, who provide unending inspiration. Their support has been unconditional all these years; they have given up many things for me to be at IIT (BHU); they have cherished with me every great moment and supported me whenever I needed it.

I humbly thank Allah Almighty for their blessings.

Anish Ahmad
