## ACKNOWLEDGEMENTS

First of all, I wish to thank my main supervisor, **Professor S.B. Dwivedi**, Department of Civil Engineering, Indian Institute of Technology (BHU), Varanasi, for his support, help, advice, and patience in correcting the many mistakes I made along the way. Countless discussions during field work and his office have been of cardinal importance and have shaped the development of this thesis. It has been a privilege to work under a man with such dedication, zeal and passion for research and fondness towards his students. This work could not have been completed without him. I remain forever indebted for the knowledge he has imparted on me since the day I joined, and I remain forever grateful to him for the pleasant experience during my research tenure, which just made me more confident and passionate towards my work.

I also express my gratitude to **Dr. Medha Jha (internal subject expert)** for her continuous motivation, support and valuable suggestions during this project. I am always thankful to her for her advice and her experiences which she shared with me. I am also thankful to **Prof. S. K. Upadhyaya, (external subject expert)** Department of Mathematics, Indian Institute of Technology (BHU), for his continuous support and help. I am also thankful to **Dr. B.N. Singh**, for his guidance and suggestions throughout my PhD work. I express my humble thanks to **Prof. Prabhat Kumar Singh Dikshit, Head, Department of Civil Engineering, Indian Institute of Technology (BHU)**, for his encouragement and arranging all kind of support from the department.

I want to thank **MHRD** for providing financial support in the form Junior Research Fellowship and other financial aids for the successful completion of the research work.

I am thankful to **Prof. S.P. Singh, Institute of Earth and Planetary Systems Science, Bundelkhand University, Jhansi** and **Dr. L. L. Vishwakarma, Dy. Director General (Rtd.), Geological Survey of India** for carrying out field work and imparting field based knowledge which was very helpful for my research work. I would also like to thank them for providing infrastructural support and guidance throughout the field session for efficient and smooth experience.

A special acknowledgement goes to **Mr. Dinesh Singh** and my labmates **Dr. Pratigya Pathak, Dr. Nikhilesh Singh, Dr. Ravi Ranjan Kumar, Mr. Sandeep Maddheshiya, Mr. Raviranjana Kumar Sharma** and **Mr. Vikas Pandey** for their continuous help, support and guidance during my lab work. It was great sharing lab with you people.

I am very much thankful to **Prof. N.V. Chalapathi Rao, Dr. Dinesh Pandit** and **Dr. Rohit Pandey**, Department of Geology, Banaras Hindu University for his technical support and help during the EPMA data acquisition.

I express special thanks to **Mr. Priyesh Prabhat** and **Dr. Abhishek Kumar Chaurasia**, two old friends for their personal support, encouragement and love in every stages of the research work.

I owe my utmost gratitude to my parents **Shri C.M. Srivastava and Smt. Rita Srivastava**, my grandmother **Late Smt. Gaura Devi** for their love and support throughout my life and showering their blessings. I thank all for giving me strength, guidance, and freedom to chase my dreams. I must thank my younger brother **Mr. Ayush Srivastava** for being a constant pillar of support. I am also grateful to my uncles, aunts, nephews and all my relatives for their wishes and support. I remain grateful near all mighty God for the opportunities and all the blessings.

And above all, the list cannot go unfinished without expressing my sincere thanks to my wife **Smt. Utkarsha Srivastava** for the all the love and support she has given since the inception of my research work. I would like thank her for the constant belief that she had in me throughout my life.

There are few more uncredited good hearts behind this success. I would like to thank every one of them.

Again, I am very grateful to my supervisor and my family members, who believed and encouraged me for making this mission possible.
