

Development of a framework for Managed Aquifer Recharge (MAR) planning using spatial and numerical modelling to resolve groundwater depletion challenges

Thesis submitted in partial fulfilment for the
Award of Degree

Doctor of Philosophy

By

Ankit Tewari

DEPARTMENT OF CIVIL ENGINEERING
INDIAN INSTITUTE OF TECHNOLOGY
(BANARAS HINDU UNIVERSITY)
VARANASI – 221005

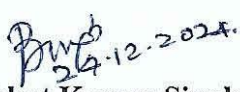

Roll No. 17061501

2024

CERTIFICATE

It is certified that the work contained in the thesis titled “**Development of a Framework for Managed Aquifer Recharge (MAR) Planning using Spatial and Numerical Modelling to Resolve Groundwater Depletion Challenges**” by Ankit Tewari has been carried out under our supervision and that this work has not been submitted elsewhere for a degree.

It is further certified that the student has fulfilled all the requirements of Comprehensive Examination, Candidacy, and State of the Art (SOTA) for the award of Ph.D. Degree.

Prof. Prabhat Kumar Singh
(supervisor)

DECLARATION BY THE CANDIDATE

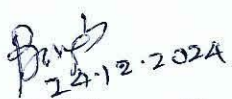

I, **Ankit Tewari**, certify that the work embodied in this thesis is my own bona fide work and carried out by me under the supervision of **Prof. Prabhat Kumar Singh** and **Dr. Shishir Gaur** from **Dec 2017** to **Dec 2024** at the *Department of Civil Engineering, Indian Institute of Technology (BHU) Varanasi*. The matter embodied in this thesis has not been submitted for the award of any other degree/diploma. I declare that I have faithfully acknowledged and given credits to the research workers wherever their works have been cited in my work in this thesis. I further declare that I have not willfully lifted any other's work, paragraphs, text, data, results, *etc.*, reported in journals, books, magazines, reports dissertations, thesis, *etc.*, or available at websites and included them in this thesis and cited as my own work.

Acknowledgement

In the pursuit of knowledge, we are guided not only by our own efforts but also by the wisdom and support of those around us. This thesis represents not just the culmination of my individual effort, but a collective endeavour fuelled by the contributions and encouragement of many.

First and foremost, I extend my heartfelt gratitude to my esteemed supervisors, Prof. Prabhat Kumar Singh and Dr. Shishir Gaur, Department of Civil Engineering, Indian Institute of Technology (Banaras Hindu University), for their unwavering support, guidance and encouragement throughout my Ph.D. Their scholarly insight and constructive critique have been pivotal in shaping both my research and personal growth throughout this doctoral journey.

I am deeply thankful to the members of my Research Progress Evaluation Committee (RPEC), Prof. Anurag Ohri, Department of Civil Engineering, Indian Institute of Technology (Banaras Hindu University) and Dr. V. Ramanathan, Department of Chemistry, Indian Institute of Technology (Banaras Hindu University) for their invaluable feedback and guidance at critical junctures of my research. Their thoughtful insights and rigorous evaluation have significantly enriched the quality and depth of this thesis.

To the Department of Civil Engineering, IIT(BHU) Varanasi, I am indebted for providing a stimulating academic environment and access to resources that facilitated my research endeavours. I am thankful to all the teaching and non-teaching staff of the Department of Civil Engineering, IIT(BHU) Varanasi. I extend my gratitude to all the people who have contributed directly or indirectly in the course of my research work.

I would like to express my gratitude to the National Resources Data Management System (NRDMS), Department of Science & Technology, New Delhi for their support. My

sincere thanks to Mr. Sujatro Ray Chowdhuri, Scientist C, CGWB, Lucknow, and Mr. Harikesh Meena, Assistant Engineer, CWC, Jhansi for acquainting me to the study area and providing all necessary data. I acknowledge Central Water Commission (CWC), Central Ground Water Board (CGWB), Indian Meteorological Department (IMD), Irrigation Department, Jhansi for provision of requisite data. I would also like to thank Mr. Vikas Singh for his assistance in field visit and data collection.

I extend my gratitude to my seniors, juniors, friends and colleagues, especially Ranveer, Shreyansh, Rajshree, Mayank, Ankit and Barun from Advance Computing Lab; Abhijit, Nitin and Dr. Sonam from Environmental Engineering Lab; Dr. Niteesh, Dr. Sourav, Dr. Surya, Abhay and Dr. Parul from Geotechnical Lab; Dr. Rahul, Dr. Dheeresh, Dr. Abhishek, Dr. Bhupender and Dhirender from Structure Lab; Dr. Padam and Dr. Ravi from Hydraulics and Water Resources lab for their camaraderie, encouragement, and intellectual exchange, which have enriched my academic experience immeasurably. I am thankful to MHRD for providing the financial assistance during my research work.

To my family, my mom, dad, sister Neha T and brother-in-law Subodh C. Karki whose love, patience, and unwavering belief in my abilities have been a constant source of strength and motivation, I extend my heartfelt appreciation. Their encouragement has sustained me through the challenges and triumphs of this doctoral journey.

Finally, I would like to thank almighty God for giving me the strength and tenacity to move forward in this journey called 'Life'.

Ankit Tewari

***Dedicated to my parents, Mrs. Aruna Tewari
and Mr. Madan J. Tewari, without whom
nothing would have been possible***
