

List of Figures

2.1	Accuracy vs generation and number of features selected vs generation for Ecoli dataset	26
2.2	Accuracy vs generation and number of features selected vs generation for Glass dataset	28
2.3	Accuracy vs generation and number of features selected vs generation for Wisconsin dataset	29
2.4	Accuracy vs generation and number of features selected vs generation for Cleveland dataset	30
5.1	Parallel PSO-IDS hybrid method (Hybrid-P)	74
5.2	Series PSO-IDS hybrid method (Hybrid-S)	75
8.1	Computational time vs Number of features with RST technique	119
8.2	Computational time vs Number of Objects with RST technique	120
8.3	Computational time vs (Number of Features x Objects) with RST technique	121
8.4	Computational time vs Number of features with L-FRFS technique	123
8.5	Computational time vs Number of Objects with L-FRFS technique	124
8.6	Computational time vs (Number of Features x Objects) with L-FRFS technique	125
8.7	Computational time vs Number of Objects with RST and L-FRFS technique	127
