

## TABLE OF CONTENTS

<b>Chapter 1: Introduction to Healthcare, Homecare, and Effective Organizational Structures</b>	<b>1</b>
<b>1. Status of healthcare infrastructure and need for effective organizing</b>	<b>1</b>
1.1 Healthcare sector in India: Current status and problems	1
1.2 Homecare as a pillar of support to Healthcare sector	2
1.3 Homecare: Current status, benefits, challenges and need of hour	3
1.3.1 The current status, benefits and challenges of the homecare sector in India	3
1.3.2 Need of hour: Addressing chronic disease burden and increasing aging population's healthcare needs	7
The chronic disease burden, aging population and the need for care	7
1.4 Possible solution: Self-management in the homecare sector	9
1.4.1 Self-managed organizational (SMO) structure and its benefits	9
<b>2. Understanding self-management in the homecare sector</b>	<b>12</b>
2.1 Comparative Analysis of Traditional Homecare Models and Self-Managed Organizations	12
2.2 Empowering individuals to manage their healthcare needs	14
2.3 Minimal or no direct supervision from healthcare professionals	15
<b>3. Importance of self-management in the homecare sector</b>	<b>16</b>
3.1 Improving patient experience	16
3.2 Reduced healthcare costs	16
3.3 Improved access to healthcare services	17
3.4 Greater autonomy and control	18
4. Previous research on self-management in homecare globally	18
<b>4. Gap in knowledge</b>	<b>19</b>
4.1 Implications of knowledge gap and the need to identify Qualitative Success Enablers	19
4.2 Need to identify Qualitative Patient Experience Enhancers	20
4.3 Need to identify the Qualitative Nursing Experience Enhancers (QNEEs)	21
<b>5. Summary</b>	<b>21</b>
<b>Chapter 2: Systematic Literature Review on Self-Managed Organizations (SMOs)- Exploring the Evolution, Best Practices, and the Gap in the Current State of Research on SMOs</b>	<b>23</b>
<b>1. Knowledge gap in current SLRs</b>	<b>24</b>
<b>2. Research questions</b>	<b>24</b>
<b>3. Significance of the SLR</b>	<b>24</b>
<b>4. Theoretical framework</b>	<b>25</b>
<b>5. Methodology</b>	<b>26</b>
5.1 Search strategy	26
5.2 Inclusion and exclusion criteria	27
5.2.1 Primary inclusion and exclusion criteria	27
5.2.2 Secondary inclusion and exclusion criteria	27
5.3 Research paper selection	28
<b>6. Worldwide patterns in SMO research between 1989 and 2023 (RQ1)</b>	<b>31</b>

6.1 Geographical location of the past studies	33
6.2 Research documents by affiliation	34
6.3 Researchers with top publications	35
6.4 Subject areas and document types of the published research in self-management in organizations	37
6.5. Empirical studies on SMOs	38
6.5.1 Overview of studies conducted from 1989 to 2023	38
a) Motivation and job satisfaction	38
b) Effectiveness and efficiency	39
c) Factors influencing SMO success	39
d) Problems faced by SMOs	39
<b>7. The main attributes and tenets of SMOs (RQ2)</b>	<b>40</b>
7.1 Buurtzorg Nederland	40
7.2 Morning Star	41
7.3 Valve corporation	42
7.4 W.L. Gore and Associates	43
7.5 Semco Partners	44
<b>8. The best practices adopted at SMOs (RQ3)</b>	<b>46</b>
8.1. The effective approaches for SMOs	46
8.1.1 Clearly define roles and responsibilities	46
8.1.2 Establish a shared vision	46
8.1.3 Foster a culture of transparency and trust	46
8.1.4 Promote lifelong learning and development	46
8.1.5 Focus on accountability and ownership	47
<b>9. The identified gaps in self-management research (RQ4)</b>	<b>47</b>
9.1 Status of patient experience and nursing experience research in the homecare sector in India	47
<b>10. Discussion</b>	<b>48</b>
<b>11. Summary</b>	<b>49</b>
<b>Chapter 3: Exploring Nursing and Patient Experiences in Homecare SMOs in India using Constructivist Grounded Theory (CGT)</b>	<b>52</b>
<b>1. Constructivist Grounded Theory for the authentic inquiry into the phenomenon of interest</b>	<b>53</b>
<b>2. Research question and objectives</b>	<b>55</b>
2.1 Research question:	55
2.2 Research objectives:	55
<b>3. Data collection</b>	<b>57</b>
3.1 Sampling technique and strategy	57
3.2 Research setting and target population description	58
3.3 Data collection tool (Interview guide)	59
3.4 Data collection process	62
<b>4. Data analysis</b>	<b>63</b>
4.1 Open coding	64
Examples of open codes	64

4.2 Axial coding	66
Examples of axial codes	66
4.3 Selective coding	66
Examples of selective codes	67
4.4 Constant comparison during the data analysis process	67
<b>5. Trustworthiness</b>	<b>67</b>
5.1 Credibility	67
5.2 Transferability	68
5.3 Validity	70
5.4 Reliability	70
<b>6. Ethical protocol</b>	<b>71</b>
<b>7. Summary</b>	<b>72</b>
<b>Chapter 4: Analysis I</b>	<b>74</b>
<b>Nursing Experiences in Self-Managed Homecare Organizations in India</b>	
<b>1. Insightfulness</b>	<b>81</b>
1.1 Freedom to experience meaning and purpose in work and at the workplace	81
1.2 Expansive nursing intelligence	83
<b>2. Enhancing nursing experience through job enrichment</b>	<b>85</b>
2.1 Assisting in supplementary jobs	85
2.2 Rotating team duties	87
2.3 Small team size	89
<b>3. Autonomy-enabled intrapreneurship</b>	<b>91</b>
3.1 Protecting and expanding the organizational ecosystem	91
3.2 Safeguarding and fostering freedom parallel to safeguards	93
3.3 Leadership in nursing	96
<b>4. Patient trust and support</b>	<b>98</b>
<b>5. Summary</b>	<b>99</b>
<b>Chapter 5: Analysis II</b>	<b>101</b>
<b>Patient Experiences in Self-Managed Homecare Organizations in India</b>	
<b>1. Homecare and nurturing holistic patient care</b>	<b>105</b>
1.1 Patient-centered approach: care beyond medical diagnosis	105
1.2 Empowering trust and holistic care: the proficient bonds between nurses and patients	107
<b>2. Empowering patient-centered, compassionate homecare ecosystems</b>	<b>108</b>
2.1 Empathy in homecare: unveiling invisible problems for enhanced patient care	109
2.2 Fostering autonomy in homecare: empowering patients for independence and well-being	110
<b>3. Summary</b>	<b>111</b>
<b>Chapter 6: Analysis III</b>	<b>113</b>
<b>Management Members' Experiences in Running Self-Managed Homecare Organizations in</b>	

## **India**

<b>1. Building a Supportive Workplace for Employee Well-being, Engagement, and Success</b>	<b>121</b>
1.1 Organizational culture and support:	121
1.2 Organizational culture and empowerment:	123
1.3 Organizational culture and values:	125
<b>2. Communication and Coordination at SMOs</b>	<b>129</b>
2.1 Strategic Emergency communication and coordination	129
2.2 Sustainable communication strategies	131
<b>3. Employee well-being and development</b>	<b>132</b>
3.1 Employee well-being and work-life balance	133
3.2 Continuous training and development	135
3.3 Employee autonomy and independence	141
<b>4. Organizational evolution and adaptation</b>	<b>145</b>
4.1 Organizational evolution	146
4.2 Adaptability of practices	151
4.3 Growth Opportunities and Market Awareness	154
<b>5. Summary</b>	<b>157</b>
<b>Chapter 7: Discussion, Conclusion, Implications, Recommendations, Limitations and Future Research Directions</b>	<b>158</b>
<b>1. Nursing experience in self-managed homecare organizations</b>	<b>158</b>
<b>2. Patient experience in self-managed homecare organizations</b>	<b>165</b>
<b>3. Management members' perspectives on operating self-managed homecare organizations in India</b>	<b>169</b>
<b>Conclusion</b>	<b>174</b>
<b>Implications of research</b>	<b>177</b>
<b>Theoretical Implications of the Research</b>	<b>179</b>
<b>Recommendations</b>	<b>181</b>
<b>Limitations</b>	<b>182</b>
<b>Generalizability</b>	<b>183</b>
<b>Future research directions</b>	<b>184</b>
<b>REFERENCES</b>	<b>186</b>
