| <b>Abstract</b>   | <b>xv</b>   |
| <b>List of Acronyms and Symbols</b>   | <b>xvi</b>  |
| <b>List of Figures</b>  | <b>xxv</b>  |
| <b>List of Tables</b>   | <b>xxxv</b> |
| <b>1 Introduction</b>   | <b>1</b>    |
| 1.1 $\gamma$ - Vibrational Band . . . . .                                     | 6           |
| 1.2 Chiral Rotation . . . . .   | 9           |
| 1.3 Wobbling Motion . . . . .   | 11          |
| 1.4 Reflection Asymmetry Shape . . . . .                                      | 14          |
| 1.5 Outline of the Thesis . . . . .   | 16          |
| <b>2 Experimental Techniques and Analysis Methods</b>                         | <b>19</b>   |
| 2.1 Introduction . . . . .  | 19          |
| 2.2 Population of High Spin Nuclei with Fusion Evaporation Reaction . . . . . | 19          |
| 2.3 $\gamma$ -Ray Detection . . . . .   | 22          |
| 2.3.1 Photoelectric Effect . . . . .  | 22          |
| 2.3.2 Compton Scattering . . . . .  | 23          |
| 2.3.3 Pair Production . . . . .   | 24          |

|          |   |           |
|----------|---|-----------|
| 2.4      | HPGe Detector . . . . .   | 25        |
| 2.5      | BGO Detector . . . . .  | 26        |
| 2.6      | Clover Detector . . . . .   | 27        |
| 2.7      | Multi-Detector Arrays . . . . .                                       | 29        |
| 2.8      | Resolving Power . . . . .   | 29        |
| 2.9      | Gammasphere Array . . . . .   | 30        |
| 2.10     | Indian National Gamma Array (INGA) . . . . .                          | 30        |
| 2.11     | Signal Processing . . . . .   | 33        |
| 2.11.1   | Data Acquisition (DAQ) System of Gammasphere . . . . .                | 33        |
| 2.11.2   | Data Acquisition (DAQ) System of TIFR-INGA . . . . .                  | 34        |
| 2.11.3   | Data Acquisition (DAQ) System of VECC-INGA . . . . .                  | 37        |
| 2.12     | Data Processing . . . . .   | 38        |
| 2.12.1   | Gain-Matching . . . . .   | 39        |
| 2.12.2   | Energy Calibration . . . . .  | 39        |
| 2.12.3   | Efficiency Calibration . . . . .                                      | 40        |
| 2.12.4   | Data Analysis . . . . .   | 41        |
| 2.12.5   | Angular Distribution . . . . .  | 42        |
| 2.12.6   | Mixing Ratio Calculation . . . . .                                    | 44        |
| 2.12.7   | Directional Correlation (DCO) of De-exciting $\gamma$ Rays . . . . .  | 46        |
| 2.12.8   | Width of Sub-State Population ( $\sigma/j$ ) . . . . .                | 47        |
| 2.13     | Linear Polarization of $\gamma$ transitions . . . . .                 | 48        |
| 2.13.1   | Experimental Method of Linear Polarization Measurement . . . . .      | 51        |
| 2.13.2   | Mixing Ratio Calculation via $R_{DCO}$ -Polarization Method . . . . . | 54        |
| <b>3</b> | <b>Nuclear Models</b>   | <b>55</b> |
| 3.1      | Various Modes of Excitation . . . . .                                 | 56        |
| 3.1.1    | Single Particle Excitation . . . . .                                  | 56        |

|          |   |            |
|----------|---|------------|
| 3.1.2    | Collective Rotation . . . . .   | 57         |
| 3.2      | Large-Scale Shell Model Calculation . . . . .   | 62         |
| 3.3      | Triaxial Projected Shell Model . . . . .  | 65         |
| 3.4      | Covariant Density Functional Theory . . . . .   | 66         |
| 3.5      | Ultimate Cranking Model . . . . .   | 69         |
| <b>4</b> | <b>Possible Wobbling Phenomenon in <math>^{125}\text{Xe}</math></b>   | <b>71</b>  |
| 4.1      | Introduction . . . . .  | 71         |
| 4.2      | Experimental Details . . . . .  | 75         |
| 4.3      | Results and Discussions . . . . .   | 77         |
| 4.4      | Summary . . . . .   | 86         |
| <b>5</b> | <b>Evolution of Quadrupole and Octupole Excitations beyond Noncollective States in <math>^{114}\text{Te}</math></b> | <b>87</b>  |
| 5.1      | Introduction . . . . .  | 87         |
| 5.2      | Experimental Details and Data Analysis . . . . .  | 89         |
| 5.3      | Results . . . . .   | 97         |
| 5.4      | Discussions . . . . .   | 105        |
| 5.5      | Summary . . . . .   | 117        |
| <b>6</b> | <b>Observation of Transverse Wobbling motion and Chiral Bands in <math>^{119}\text{I}</math></b>                    | <b>119</b> |
| 6.1      | Introduction . . . . .  | 119        |
| 6.2      | Experimental Details . . . . .  | 121        |
| 6.3      | Results and Discussions . . . . .   | 122        |
| 6.4      | Summary . . . . .   | 139        |
| <b>7</b> | <b>Conclusions and Future Perspective</b>   | <b>141</b> |
| 7.1      | Summary of Contributions and Conclusions . . . . .  | 141        |

7.2 Future Perspectives . . . . . 144
