

Contents

Preface	xi
1 Introduction	1
1.1 The Uncertainty Principle	1
1.2 Discussion of the main results	3
1.3 The Hermite functions	4
1.4 The Bargmann transform and its properties	10
1.5 Laplace's method	12
1.6 The Theorem of Phragmén and Lindelöf	13
1.7 Outline of the thesis	14
2 On pair correlation of Hermite coefficients of functions from the Hardy class	15
2.1 Statement of the result	15
2.2 Proof of the result	16
3 A generalization of a result of Vemuri	21
3.1 Statement of the main result	21
3.2 Proof of the main result	22
3.3 Gaussian estimates of the Bargmann transform	24
Bibliography	31
List of Publications	33
