
LIST OF TABLES

		Page No.
Chapter I	Introduction and Literature Review	
Table 1.1	Comparison between different fuel cells	3
Table 1.2	Rhombohedral and cubic modifications of lanthanum aluminate (LaAlO_3) at different Temperature	21
Chapter 2	Synthesis, Characterization and Analysis Techniques	
Table 2.1	Specifications of the proposed materials	28
Chapter 4	Study of Structural and Electrical Properties and their Correlation for The Systems $\text{La}_{0.9-x}\text{Sr}_{0.1}\text{Ba}_x\text{Al}_{0.9}\text{Mg}_{0.1}\text{O}_3$ in both Bulk and Tape Casted Thin Film	
Table 4.1	Lattice parameters of both the pellet and the tape	91
Table 4.2	The values of K, Q, R and C for both the bulk and the tape	96
Chapter 6	Effect of Electrode Paste on Oxygen Ions Path at electrode/electrolyte Interface using Ag and Pt for the system $\text{La}_{0.9-x}\text{Sr}_{0.1}(\text{Ba}, \text{Sm})_x\text{Al}_{0.9}\text{Mg}_{0.1}\text{O}_3$	
Table 6.1	Polaronic behavior of the investigate system before and after ZBT	136
Table 6.2	Oxygen ions path for different electrode/electrolyte interface	140
