

LIST OF TABLES

Table 3.1 Various Parameters Used in Genetic Algorithm (GA).....	29
Table 4.1 Available Pipe Sizes and Costs for Case Study of Simpson (1994)....	48
Table 4.2 Demand Pattern and Associated Minimum Pressure for Network by Simpson (1994).....	49
Table 4.3 Fitted Cost Functions for Nonlinear Optimisation Model Pipes of Simpson (1994).....	49
Table 4.4 Design Option for Case Study.....	52
Table 4.5 Options for Each Decision Variables.....	53
Table-4.6 Initial Solution (Population) Randomly Generated by GA.....	54
Table 4.7 Fitness Value (Total Cost in Dollars) Vs Percentage of Crossover.....	60
Table 4.8 Variation of Fitness Value (Total Cost in Dollars) at Different Mutation	61
Table 4.9 Fitness Value (Total Head Loss in Dollars) Vs Different Crossover Point.....	62
Table 4.10 Best Nine Solutions that Satisfy Pressure and Demand Constraints .	63
Table-5.1 Details of Commercially Available Pipes	71
Table-5.2 Average Roughness Heights, ϵ (Millimeter)	72
Table-5.3 Design Option for Case Study.....	73

Table-5.4 Details of Commercially Available Pipes with Binary Coding in GA	76
Table-5.5 Details of Roughness Height (€) with Binary Coding in GA	76
Table-5.6 Initial Solutions (Population) Randomly Generated by GA	77
Table-5.7 Total Head Loss in Pipe in Meter (Fitness Value)	79
Table-5.8 Best 5 Fitness Value or Solutions (Total Head Loss in Meter).....	80
Table-5.9 Total Head Loss in Pipe in Meter (Fitness Value)	86
Table-5.10 Best 5 Solutions (Total Head Loss in Meter).....	87
Table-5.11 Best 4 solutions (Total Head Loss in Meter).....	90
Table-5.12 Best 4 Solutions (Total Head Loss in Meter).....	91
Table-5.13 Best 3 Solutions (Total Head Loss in Meter).....	92
Table-5.14 Best 3 Solutions (Total Head Loss in Meter).....	93
Table-6.1 Pressure Head and Demand Pattern at Different Node.....	98
Table-6.2 Price List for Jindal Pipes Limited, India, w.e.f. January, 08, 2015) ..	99
Table 6.3 Design Option for AIT Campus Pipe Network	105
Table 6.4 Options for Each Decision Variables.....	106
Table-6.5 Initial Solution (Population) Randomly Generated by GA.....	107
Table 6.6 Fitness Value (Total Cost in Rupees) Vs. Percentage of Crossover..	110
Table 6.7 Variation of Fitness Value (Total Cost in Rupees) at Different Mutation	111
Table 6.8 Fitness Value (Total Cost in Rupees) vs. Different Crossover point.	112
Table-6.9 Cost of the Pipe Network and the Diameter of Pipes in Millimeter..	113

List of Tables

Table-6.10 Existing Pipe in the Network VS. Recommended New pipe 113

Table-6.11 Comparison of Existing Pipe Network Cost and Proposed Pipe
Network Cost At Present Market Rate 114
