

Advancement in Synthesis and Functionalization of Biologically Relevant Heterocyclic Scaffolds

Thesis submitted in partial fulfilment for the
Award of Degree

Doctor of Philosophy

By

Indurthi Harish Kumar, M. Tech. (Pharm.)

Department of Pharmaceutical Engineering & Technology
Indian Institute of Technology
(Banaras Hindu University)
Varanasi-221005, India

Roll No. 20161508

Year: 2024

Department of Pharmaceutical Engineering & Technology
Indian Institute of Technology
(Banaras Hindu University)
Varanasi-221005

CERTIFICATE

It is certified that the work contained in the thesis titled “**Advancement in Synthesis and Functionalization of Biologically Relevant Heterocyclic Scaffolds**” by **Mr. Indurthi Harish Kumar** has been carried out under my supervision and that this work has not been submitted elsewhere for a degree.

It is further certified that the student has fulfilled all the requirements of Comprehensive Examination, Candidacy and SOTA for the award of Ph.D. Degree.

Dr. Deepak Kumar
(Supervisor) **डॉ. दीपक कुमार / Dr. Deepak Kumar**
सहायक आचार्य / Assistant Professor
भेषजकीय अभियांत्रिकी एवं प्रौद्योगिकी विभाग /

(काशी हिन्दू विश्वविद्यालय) (Banaras Hindu University)
वाराणसी-221005 / Varanasi-221005
Date: 13/08/2024.
Place: IIT (BHU), Varanasi

DECLARATION BY THE CANDIDATE

I, **Indurthi Harish Kumar**, certify that the work embodied in this Ph.D. thesis is my own bonafide work and carried out by me under the supervision of **Dr. Deepak Kumar** from **Jan, 2021 to Aug, 2024** at the **Department of Pharmaceutical Engineering & Technology, Indian Institute of Technology (Banaras Hindu University), Varanasi**. The matter embodied in this Ph.D. thesis has not been submitted for the award of any other degree/diploma. I declare that I have faithfully acknowledged and given credit to the research workers wherever their works have been cited in my work in this thesis. I further declare that, I have not wilfully copied any other's work, paragraphs, text, data, results, etc. reported in the journals, books, magazines, reports, dissertations, theses, etc., or available on websites and have not included them in this Ph.D. thesis and have not cited as my own work.

Acknowledgement

I am deeply grateful to Bharat Ratna Pandit Madan Mohan Malviya ji for his unwavering dedication in establishing the esteemed institution, Banaras Hindu University. His tireless efforts have created this sacred space of learning, and I feel privileged to be a part of it.

I extend my sincere gratitude to my supervisor, Dr. Deepak Kumar, for his unwavering support and guidance throughout my Ph.D. research journey. His extensive knowledge, vast research experience, and invaluable suggestions have been instrumental in shaping the trajectory of my work. His insightful feedback challenged me to refine my thinking and elevate the quality of my research. I am truly thankful for the opportunity to be his student, and for the enduring faith he has shown in me over the years. I find it challenging to express adequately my appreciation for his role in shaping me into not only a better researcher but also a better person.

I extend my sincere thanks to Prof. S. Hemalatha, Head of the Department of Pharmaceutical Engineering & Technology, I.I.T. (B.H.U.), Varanasi, for her invaluable support in providing the necessary infrastructure facilities throughout the course of my work.

I would like to extend my sincere thanks to RPEC member Dr. shreyans k. jain sir from the Department of Pharmaceutical Engineering & Technology), and Dr. Arindam indra from the Department of Chemistry. Their valuable input and constructive criticism have played a pivotal role in encouraging me to broaden the scope of my research from various perspectives.

I extend my heartfelt thanks to all the esteemed faculty members of the department, including Prof. B. Mishra, Prof. K. Sairam, Prof. S. K. Srivastava, Prof. M.S. Muthu,

Prof. A. Senthil Raja, Dr. Ruchi Chawla, Dr. Vinod Tiwari, Dr. A. N Sahu, Dr. S. K. Mishra, Dr. Prasanta Kumar Nayak, Dr. Gyan Prakash Modi, Dr. S. K. Jain, Dr. Ashish Agarwal, Dr. Dinesh and Dr. Jairam Meena. Their unwavering support and encouragement have been instrumental during the progress of my research, and I am sincerely grateful for their kindness and guidance.

The support and the resources provided by Central Instrument Facility (CIF), IIT(BHU), Varanasi, are gratefully acknowledged.

I pay sincere thanks to Mr Yashwant Singh, Mr Atul Gupta, Mr Anand and all the departmental non-teaching staff for their co-operation and help during my research work.

I am thankful to the Department of Biotechnology and CSIR, GoI, for providing support in the form of a fellowship.

I am immensely grateful to my seniors, I am thankful to my seniors Dr. Ramakrishna Kakarla, Dr. Kashi Viswanath, Dr. Charan, Dr. Bhanukiran Kancharla, Dr. Digambar Waiker and Mr. Himanshu Rai for their motivation and guidance.

I want to express my heartfelt thanks to my amazing friends. My heartiest thanks to my friends Samarpita, Naveen, Anoop, Aiswarya, Narayan, Obul, Bhagwati, Gauri Shankar, Anurag, Bhanuranjan, and Maan Singh for their care & support during my stay in IIT(BHU). I would also like to thank my juniors Pallavi, Rohit, Komal, Hemlata, Kamal, Saurabh, Mohit, Rakhi and Vijay Thank you for being an integral part of this journey and for celebrating this achievement with me.

I would like to extend my deepest gratitude to my family. Without their unwavering support, encouragement, and love, achieving this would not have been possible. Their belief in me has been my source of strength and motivation throughout this journey. I am truly blessed to have such an incredible family by my side. Thank you for being my pillars of support and for making this achievement a reality.

Table of Contents

1. Introduction.....	2
1.1. Five-Membered Heterocyclic Compound.....	2
1.2 Six-Membered Heterocyclic Compounds.....	3
1.3 Fused Heterocyclic Compounds.....	3
1.4 3,3'-Diindolylmethane (DIM).....	4
1.4.1 Synthesis of DIMs: Challenges and Advances.....	5
1.4.2 Green Synthesis Approaches.....	6
1.4.3 Light-Mediated Approaches.....	6
1.4.4 Ongoing Research and Future Directions.....	6
1.5 Imidazo[1,2-a]pyridine.....	7
1.5.1 Multicomponent Approach.....	10
1.5.2 Cascade reaction.....	11
1.5.3 Aminooxygenation.....	11
1.5.4 Hydroamination.....	12
1.5.5 Oxidative Process.....	12
1.5.6 Condensation Reaction.....	13
1.6 Coumarin.....	14
1.6.1 Wittig Reaction.....	17
1.6.2 Perkin reaction.....	17
1.6.3 Baylis-Hilman Reaction.....	18
1.6.4 Pechmann Condensation.....	19
1.6.5 Knoevenagel condensation.....	20
1.7 Objectives of Thesis Work.....	22
2. Persulfate Mediated Synthesis of Diindolylmethanes from Coupling of Alcohols with Indoles.....	40
2.1 Introduction.....	40
2.2 Results and discussion.....	42
2.3 Control experiments.....	47

2.4 Conclusion.....	49
2.5 General procedure for the synthesis of 1a-3f.....	49
2.6 Gram Scale procedure for the synthesis.....	50
2.6.1 Synthesis for the compound 4a.....	50
2.6.2 Synthesis for the compound 4b.....	50
2.7. Control experiment procedure.....	50
2.7.1 TEMPO addition in general procedure.....	50
2.7.2 BHT addition in general procedure.....	51
2.8 Analytical Data of Compounds.....	51
2.9 Spectral Data of Synthesized Products.....	55
3. Persulfate Mediated Synthesis of Diindolylmethanes from Coupling of Arylacetic Acids with Indoles.....	65
3.1 Introduction.....	65
3.2 Results and discussion.....	67
3.3 Conclusion.....	73
3.4 Experimental Section.....	74
3.4.1 General procedure for the synthesis of bisindolylmethanes 1a-1n.....	74
3.4.2 Gram-scale procedure for the synthesis of compound 2a.....	74
3.4.3. Gram-scale procedure for the synthesis of compound 2b.....	74
3.4.4. Control experiments.....	75
3.5. Analytical Data of synthesized compounds.....	75
3.6. Spectral Data of Synthesized Products.....	81
4. Persulfate Mediated C-3 Formylation of Imidazopyridines Using Glyoxylic Acid.....	91
4.1 Introduction.....	91
4.2 Results and Discussion.....	93
4.3 Conclusion.....	99
4.4 Experimental section.....	100
4.4.1 General procedure for the synthesis of imidazopyridines (1a-1p).....	100
4.4.2 General procedure for the synthesis of 3-formylated imidazopyridines 3a-3n.....	100

4.4.3 Gram-scale procedure for the synthesis of compound 3a.....	100
4.4.4 Control experiments.....	101
4.5 Analytical Data of synthesized compounds (3a-3p).....	101
4.6 Spectral Data of Synthesized Products.....	109
5. Transition-Metal-Free C–N Cross-Coupling of Coumarins Enabled by a Multifunctional Reagent.....	117
5.1 Introduction.....	117
5.2 Results and Discussion.....	119
5.3 Conclusion.....	125
5.4 Experimental section.....	125
5.4.1 General procedure for synthesis of 7-aminocoumarins (4a-4e and 6a-6l).....	125
5.4.2 Gram-scale procedure for the synthesis of compound 6j.....	126
5.5 Analytical Data of Synthesized Compounds.....	127
5.6 Spectral data of synthesised compounds.....	135
6. tert-Butyl Nitrite Mediated Conversion of Alcohols to Amides: Application in Synthesis of Anti-Alzheimer Compounds.....	141
6.1 Introduction.....	141
6.2 Results and Discussion.....	143
6.3 Conclusion.....	148
6.4 Experimental section.....	149
6.4.1 Extraction and isolation of vasicine from <i>Adhatoda vasica</i>	149
6.4.2. Procedure for synthesis of VA.....	150
6.4.3 General procedure for the one pot synthesis of amides.....	150
6.4.5 Gram-scale procedure for the synthesis of compound 4a.....	150
6.5 Control experiments.....	151
6.5.1 TEMPO addition in the general procedure.....	151
6.5.2 BHT addition in the general procedure.....	151
6.6 Analytical Data of synthesized compounds.....	151
6.7 Spectral Data of Synthesized Products.....	160
