
I must also express my deepest appreciation for the members of my family, especially my wife Aparna, who stepped in with emotional reassurance. Their continuous support and belief in my academic pursuits have been instrumental in my success. Their unconditional love and sacrifice have been the foundation for my resilience and success.

List of Figures	xix
List of Tables	xxi
Abbreviations	xxiii
Preface	xxvii
1 Introduction	1
1.1 Background	7
1.1.1 Image Dehazing	8
1.1.2 Low-Light Image Enhancement	10
1.2 Motivation of the Research Work	13
1.3 Contribution of the Dissertation	14
1.4 Organisation of the Dissertation	15
2 Related Literature Review and Preliminaries	17
2.1 Image Dehazing	17
2.1.1 Literature review	18
2.1.2 Existing Image Dehazing VLSI Architectures	21
2.2 Low-Light Image Enhancement (LLIE)	22
2.2.1 Literature review	23
2.2.2 Existing LLIE VLSI Architectures	25
2.3 Quantitative Evaluation Metrics	26
2.3.1 Peak Signal-to-Noise Ratio (PSNR)	26

2.3.2	Structural Similarity (SSIM)	27
2.3.3	CIEDE 2000	27
2.3.4	Naturalness Image Quality Evaluator (NIQE)	27
2.3.5	Blind/Referenceless Image Spatial Quality Indicator (BRISQUE)	28
2.4	Chapter summary	28
3	Saturation Based Image Dehazing and its VLSI Architecture	29
3.1	Introduction	29
3.2	Background	31
3.3	The Proposed VLSI Architecture	34
3.3.1	Atmospheric Light Estimation (ALE) Module	35
3.3.2	Image Normalization and Saturation Estimation Module	40
3.3.3	Transmission Estimation Module	40
3.3.4	Scene Restoration Module	41
3.4	Performance Evaluation and Results Analysis	42
3.5	Concluding Remarks	49
4	Intensity Based Video Dehazing and its VLSI Architecture	51
4.1	Introduction	51
4.2	Background	52
4.3	The Proposed Method and its VLSI Architecture	53
4.3.1	The Proposed Method	53
4.3.2	The Proposed VLSI Architecture	57
4.4	Performance Evaluation and Results Analysis	62
4.4.1	Ablation Study	62
4.4.2	Qualitative Analysis	62
4.4.3	Quantitative Analysis	64
4.4.4	Suitability for Autonomous Vehicles	66
4.5	Concluding Remarks	67
5	Retinex Based Low-Light Image Enhancement Algorithm and its VLSI Ar-	

Architecture	69
5.1 Introduction	69
5.2 The Retinex model	70
5.3 The Proposed Enhancement Algorithm	71
5.4 The Proposed VLSI Architecture	74
5.5 Performance Evaluation and Results Analysis	78
5.6 Concluding Remarks	81
6 Conclusions	83
References	89
